Generative AI Project | FastAPI + Google Gemini

Mariya Darshini (Team Leader), S. Harini, R. Subhashri, S. Mythili

1. Discover

User opens the FitBuddy AI home page and sees the 7-day planner.

2. Enter

User provides name, user ID, age, weight, fitness goal and workout intensity.

3. Generate

User clicks Generate 7-Day Plan. The application sends the request to the Gemini AI service (or the local fallback generator).

4. Review

User reads the day-by-day plan with warm-up, workout, cooldown and recovery guidance, plus the nutrition / recovery tip.

5. Refine

User submits feedback such as more cardio or an extra rest day and receives an updated plan with a success message.

6. Monitor

An admin or coach opens the Users page to view all users and their original and updated plans.
