

Proposed Solution

Fit Buddy AI – AI Fitness Plan Generator using Gemini Models

Generative AI Project | FastAPI + Google Gemini

Mariya Darshini (Team Leader), S. Harini, R. Subhashri, S. Mythili

Core solution

A web-based AI fitness assistant that generates a personalized 7-day workout plan, gives a nutrition / recovery tip, revises the plan from feedback and offers an admin view of all users.

Input

Name, user ID, age, weight, fitness goal, workout intensity and optional feedback text.

Processing

The backend validates the request, builds a prompt, calls the Gemini AI service (or the fallback generator), validates that the result contains exactly 7 days and stores it in SQLite.

Output

A readable day-by-day plan, a nutrition / recovery tip and an updated plan after feedback.
